# QUALITY WOOD CHIP DELIVERED TO YOU

■ Wintering sheds ■ Wintering pads ■ Calf sheds ■ Lanes

**Ultimately cows need a clean, dry and comfortable surface to rest on.**

McNeill wood chip is sourced from Niagara Sawmill where they produce clean, quick drying radiata pine chip that is ideal for use in the rural sector.

Not only does radiata pine smell fresh it is naturally hygienic... as like wooden chopping boards have a natural tannin in them that acts as an anti-bacterial agent. Wood chip creates cleaner cows prior to milking and are less susceptible to mastitis.

Wood chip can be washed and dries quickly as air circulates around the chips. This continuous air flow is beneficial in keeping moisture at a minimum.

Moisture is one of several essential factors necessary for bacterial growth in bedding materials. Therefore, it is important to keep bedding as dry as possible to minimise exposure to environmental mastitis pathogens.
